Re: EA for Federal Coal Lease UTU-68082, Genwal Coal Company, Crandall Canyon Mine, ACT/015/032-94B, Folder #2, Emery County, Utah

Dear Mr. Holbrook:

Enclosed for your information and files is a copy of the Finding of No Significant Impact/Decision Notice (FONSI/DN) and Environmental Assessment (EA) for the Federal Coal Lease application UTU-68082.

As you know Genwal has made application to incorporate this lease into their current SMCRA permit area. In the interest of time they have also applied for an incidental boundary change (IBC) to allow them to mine approximately 50 acres of this lease which adjoins their current permit area. The Division is currently processing this IBC and expects to render a decision in the near future. We hope this information will aid you in formulating the Federal Mine Plan approval documents that will be needed. We will also provide you a copy of the lease document as soon as it is made available.

If you have any questions or comments please don't hesitate to call.

Sincerely,

Daron R. Haddock  
Permit Supervisor
